Infinitech

Engage with today's line-up of experts from BigDataStack, INFINITECH, BDVA Task Force on Big Data and AI for Finance, pose your question.

- To which of our stakeholder types do you belong? Big Data Provider, Big Data Technology Provider, Finance and Insurance Sector, Research & Academia, Policy Maker, Standardisation Body,
- Are you working in or with the finance or insurance service industry? (Yes, No)
- Are you working with BigData? (Yes, No)
- Are you interested in BigData Technologies to optimize your customer experience? (Yes, No, Maybe)
- What is the main barrier or risk preventing you from implementing BigData analytical solutions in your organization? (Costs, Lack of expertise, Uncertain Value (ROI))

Provide your input via the Zoom poll

- The Task Force of the Rolling Plan of ICT Standardisation is working on a special chapter identifying the need for ICT standards to combat coronavirus and to support the recovery of the European industry.
- The **Task Force invites** you to share any practical suggestions where standards activities should be kicked off.
- This could also be with the perspective of improving available technological solutions, to be better prepared for a next wave of outbreak or for future pandemics.

During the webinar we saw the envisioned exchange of health data in a secure way in the INFINITECH pilot as an example.

After the webinar you'll receive a mail to which you are invited to respond with your suggestions. Your suggestions will be shared with the Task Force.
